**DETAILED ACTION**

1. Applicant's Amendment filed January 16, 2008 in response to Examiner's Office Action has been reviewed. Claims 2, 3, 19 and 20 are canceled, and claims 1, 4-11, 18 and 21-25 are amended.

***Allowable Subject Matter***

2. Claims 1, 4-18 and 21-27 are allowed over the prior art of record.

The prior art of record fails to teach or suggest individually or in combination acquiring a lock for the portion of the configuration in a first node in the distributed environment; modifying the portion of the configuration; invalidating a representation of the portion of the configuration in the distributed environment; and releasing the lock, and updating a database to reflect modifications of a portion of the configuration; and blocking reads of the configuration during the updating as set forth in independent claims 1, 11, 18 and 25.

Dependent claims 4-10, 12-17, 21-24, 26 and 27 being further limiting to the independent claims 1, 11, 18 and 25 respectively are also allowed.

The closest prior art, Brady et al., US Patent Application Publication No. 2006/0010438 teaches a method and system for updating software configurations of line-replaceable unit (LRU) computers in which a plurality of configurable LRUs, each of the LRUs including a configuration file generator operable to generate a configuration file representing current software components at the respective LRU; and a network communication device operable to

send the configuration file to the server. The system further includes a network backbone for handling parallel communications between the LRUs and the server. The closest prior art fails to anticipate or render Applicant's limitations above obvious.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thuy N. Pardo whose telephone number is 571-272-4082. The examiner can normally be reached on Mon-Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tim Vo can be reached on 571-272-3642. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
